

BOSCH

Invented for life

FAA-500-SB Surface mount back box

For special applications where it is not possible to flush-mount the Series 500 and 520 detectors in a ceiling, surface mount back boxes are available.

These are used as an alternative to the ceiling mount back box. The surface mount back boxes are designed for surface-mounted cable feed and flush-mounted cable feed with cable protection conduits.

Functions

The inputs for surface-mounted cable feed are pre-punched. For flush-mounted cable feed, two inlets are provided in the base:

- each 20 mm (0.75 inch) for PG 13.5 threads
- each 25 mm (1.0 inch) for 3/4" conduit.

In the case of cable feed via PG 13.5 threads, cables with diameters of up to 1.2 cm can be used.

The base is mounted using screws at four attachment points.

Technical Specifications

FAA-500-SB Surface mount back box

Housing material	Polycarbonate (PC-FR)
Housing color	White (RAL 9003)
Dimensions	Ø 150 mm x 80 mm
Weight (without/with packaging)	Approx. 195 g / 300 g
