FME-420-ADAP Tool adapter for MS420

The FME-420-ADAPT tool adapter can be used in addition to the universal exchanger device. The plastic bowl and the adapter pole optimize the insertion and removal of fire detectors when using detector bases with springs (MS 420, FAA-MS 420-R-SP).

Note Use the plastic bowl exclusively with the adapter pole. On the adapter pole there is a rubber bearing that cushions the turning motion when removing the fire detectors and prevents damage.
